HOUSTON CUSTOM CABINETS

2026 • THE LINE GUIDE

Product Lines.

Four cabinet lines. Three closet systems. One Houston shop.

One shop. Four lines.

*Every YuDeZign cabinet starts the same way: a frameless, full-access box in 3/4 inch plywood, edge-banded, with **soft-close** on every door and drawer, made to order in our Houston shop. The lines are how you dress it: four levels of surface, hardware and detail, each with its own palette.*

LINE	DOOR SURFACE	DECORS	PERKS	INTERIOR
Essential	Woodgrain and solid TFL (value tier)	62	Standard pulls and knobs; organizers a la carte	UV-cured birch plywood
Signature	European TFL: solids and woodgrains, deep ST textures (mid / mid-high tier)	33	Push-to-open option; KV soft-close slides; fittings program	UV-cured birch plywood

THE GOLA DETAIL

The profile itself: an anodized aluminum extrusion. Shown in matte black; silver and brushed gold to match the room.

Set into the run, the C channel forms a continuous recessed grip between drawer fronts.

The C section in profile; an L profile tucks under the counter for the top run. J-pull fronts are the doorside alternative.
